

unleash your productivity

Total Quality Management precursor

The concept of productivity has undergone a sea change with better understanding of interdependence.

Linking the personal productivity to organisational goals is of paramount importance. The improvement methodologies, already in use at organisational stage, have a lot of hidden learning related to personal & organisational productivity.

As a precursor to organisation-wide TQM implementation, this invigorating training workshop discusses learning from TQM philosophy and the values that can be imbibed.

Contents

Aligning to organisational goals
 Concept of value, cost & performance
 Type of goals
 Look at the processes horizontally - DPA
 An attitude of learning
 Make the workplace transparent – 5S
 Make improvement a habit - Kaizen
